

FIRE EQUIPMENT MANUFACTURERS' ASSOCIATION

ALL MEMBERS ARE MANUFACTURERS OF FIRE SAFETY EQUIPMENT AND

FIRE INDUSTRY LEADERS DEDICATED TO SAVING LIVES AND PROTECTING PROPERTY

FIRE HOSE, CABINET & VALVE

Standpipe and hose systems provide means for manual application of water to fires in buildings.

PRE-ENGINEERED FIRE EXTINGUISHING SYSTEMS

Pre-engineered fire suppression systems provide fast, on-site protection at the earliest stage of a fire.

PORTABLE FIRE EXTINGUISHERS

Portable fire extinguishers are for fighting fires when they are initially discovered, which prevents them from spreading and causing more damage.

TOGETHER, THE ASSOCIATION'S KEY INITIATIVES INCLUDE:

Advancing best industry standards and practices with the implementation of a balanced fire protection design

Providing top education opportunities and collateral

Leading advocacy efforts to safeguard the public through participation in the code-writing processes
